The SNOW BALL STOPS HERE!

The Same Great Merchants of today are the same bloodlines of yesterday's generation, and the generation before that, and the generation before that one, and the!

11
What we are learning today, more and more as we watch the RESET Show, is what really happened to Tesla in his lifetime, and how easy it was to do it. Especially with the great merchants of the earth having their paws on everything

then, the same as they do now. And from the same family bloodlines! Following the mystery that shrouds Tesla, we are able to lift the veil up higher to see the men behind the curtain.

We are watching the very same sort of deceit and trickery happening before our very eyes, especially with President Trump. We are listening to lies told directly to our faces, even as we see a completely different story with our own eyes and have it on video to look at over and over again. Now, after all these years, a light of truth is being shed on the entire snowball that was rolled down the mountain getting bigger and bigger and bigger and it has smacked into the ice wall! There is no further it can roll! It has now shattered out a big chunk and as God's people dig through that opening, they are finding there is nothing inside it but more deceitful snow!

So, as the ICE WALLS MELT in the rotten land of the great merchants of the earth in their RESET – global warming/climate change mask of lies that they have draped over their global chrystral ball is melting. Finally the truth of the matter is becoming more and more visible with each drop of ice that evaporates!!

And the truth is revealed as fantasy in children's featured films where we have the characters of the mischief come to life. Icewalls in plain site. Now, just where did those ideas come from?

For decades many have reported their findings, after years of digging into uncharted and forbidden territories and of course documents. A few like Don Nicoloff have been fortunate enough to get some confessions on many a death bed of those involved.

The following investigative work and words By Don Nicoloff

*What you are about to read is another step beyond research pioneered in the early 90s by **author/historian Webster Tarpley** based largely on deathbed “clues” provided by **former Hitler bodyguard Otto Skorzeny** and his box of photographs. Since Skorzeny’s death in 1999, the various leads he provided have been followed up and tend to support what, at first blush, would appear to be the unbelievable rantings of an embittered old man. What remains constant as we pore through publicly available official records, private correspondence, memoirs, newspaper articles, photos and other “clues” is that **Bush family records (the ones that exist)** are a puzzle palace of inconsistencies and curiosities. Since it is a congressionally established fact that Prescott Bush was in business with the Nazis during WWII, we can safely say that the Bush/Nazi connection existed. Who are the Bushes? How did they get connected with the Nazis? Is the connection still alive through U.S. presidents George H.W. Bush and George W. Bush? The answers are not as literal as we would like them to be. But we have the testimony of Otto Skorzeny and his photos—especially the one at right. So, here we go—the first installment of an investigation that points to a curious conclusion: **The “Bush” family was created to destroy America.** – By Don Nicoloff*

Deathbed confessions, photos support claims that George H. Scherf(f), Jr., was the 41st U.S. president

According to Otto Skorzeny, pictured is the Scherff family and a few friends (circa 1938). Holding “Mother” Scherff’s hand at left is Martin Bormann. In front is Reinhardt Gehlen. In back is Joseph Mengele and to his right is Skorzeny as a young man. At center right (in the German navy uniform) is George H. Scherff, Jr. and his father George H. Scherff, Sr.

Bormann became Hitler’s second in command. Reinhardt Gehlen was a chief SS officer and **assassin who was smuggled out of Germany under Operation Paperclip**. Skorzeny was Hitler’s bodyguard and SS spy/assassin who came to the U.S. after the war **under Project Paperclip**. **Skorzeny and GHW Bush were instrumental in merging Nazi (SS) intelligence with the OSI to form the CIA with “Wild Bill” Donovan and Allen Dulles**. These guys also part of CIA mind control experiments such as MK-ULTRA. SS officer and physician Joseph Mengele, the notoriously sadistic “Angel of Death” of Auschwitz, escaped Germany to South America after the war. George H.

Scherff, II., became the 41st President of the United States as GHW Bush and George H. Scherff, Sr., was Nicola Tesla's "trusted assistant."

Now, "**Wild Bill**" **Donovan** and **Allen Dulles** were the two characters President John F. Kennedy wanted to expose and replace. Donovan was the alleged famous World War II Spymaster who started the OSS, or Office of Strategic Services (the country's first national intelligence agency) and the father of today's CIA. Donovan introduced the nation to the dark arts of covert warfare on a scale it had never seen before and one President Kennedy was ready to scale back. Remember the famous speech on "Secret Societies" that got him Assassinated? These were the ones JFK was exposing. And Dulles's job, simply put, was to hijack the US government to benefit the wealthy.

Now back to Don Nicoloff:

*"What we are taught about **history in American schools is not history, but a fairy tale.** Better yet, it is propaganda designed to hoodwink an unsuspecting society about its true heritage and the treasonous acts and sabotage that were conceived in order to bring about a New World Order. You are about to learn the real identities of those who have infiltrated your nation on behalf of secret societies intent on bringing about the total slavery of mankind. In the past, others have written about the numerous conspiracies to control natural resources, energy, food and our sovereign right to live on planet Earth — not as slaves of a wealthy few — but as free men, women, and children exercising the free will given to them by God.*

"Research" is the systematic investigation into and study of materials and sources in order to establish facts and reach new conclusions. This is important research. Read it carefully, with an open mind. Considering the use of fluorides (sodium fluoride) in drinking water and toothpaste, you may already be in denial. Fluorides (we are told) are for the prevention of tooth decay. You, the reader, can decide if they really work. The real reason they are added to your drinking water and toothpaste is to cause you to become psychologically and physically placid, and therefore, apathetic."

It was known by the FBI that German intelligence in the form of Tesla's own agent George Scherff, Sr. and his son, George Scherff, II, were spies for Hitler. That pesky "Curious George" who Tesla had said was like a monkey messing in his lab who he often had to shoo out of his work. This curious monkey was a NAZI spy for Hitler, and later became paperclipped into the Prescott Bush family as George Herbert Walker Bush. Infiltration into the government is not new... we are just now looking at it smack in the face. It is so obvious today, that people can no longer look the other way. Cartoons of the Curious George and the professor were a hit in Tesla's day, and has carried over yet to this day as the cartoon series..."Curious George". But now, after believing it was about Scherff Jr., we just may be learning that was a lie too. Keep reading...it all gets sorted out in the end.

Back to Don Nicoloff: A thought problem

"Imagine you were a member of a secret organization whose sole agenda was to control the entire planet. If your plan was to accomplish this goal without being perceived by your intended victims, discretion would be paramount. Your organization would devise a series of historical events that, on the surface, would appear to be everyday, happenstance occurrences (natural disasters, man-made diseases, acts of murder, assassination, terror, manipulation of money and energy supplies, contamination of foods, pollution of natural resources, and war). The timing of these events would require patience, careful planning, cooperation from others in positions of trust, stealth and deceit. In essence, the whole mission must derive its power through deception and concealment and must have a master plan."

"Who were the designers of this master plan? Follow along as we connect the dots."

Don Nicoloff Exposes Truth On The Account Of Nikola Tesla – It's not the way they told you it was!

“Despite conflicting literary and historical accounts, Nikola Tesla, a Serb, was born on July 10, 1856, in Smilja, Lika province, or what is now modern-day Croatia. Prior to World War I, Smilja was on the border of the Austro-Hungarian empire so, in effect, Tesla was a citizen of Austrian origin.

The son of a Serbian Orthodox priest who rose to the rank of Archbishop, Tesla had the opportunity to study a variety of topics contained in his father's personal library. As a young boy, he accompanied his father on trips to Rome, where he was able to study the **lesser-known works stored in the Vatican's vast scientific repository.**

Upon completing his studies in engineering and physics at the Polytechnic Institute in Graz, Austria, Tesla attended the University at Prague. He demonstrated, early on, an innate ability to solve mechanical and scientific problems, especially in the area of electricity and its applications in power production. **After working for Edison Telephone Company subsidiaries in Budapest, Paris, and other cities throughout Europe, Nikola Tesla went to America, to meet the man whose company gave him his first job, Thomas Edison.**

Tesla found it difficult to work for Edison (due to Edison's renegeing on financial promises), but soon found backers to finance his research and development projects and his new inventions. Financiers, such as John Pierpont (J.P.) Morgan, George Westinghouse and John Jacob Astor were among those who saw the potential in Tesla's pioneering, entrepreneurial spirit to capitalize on his technological discoveries in electricity, wireless communications, and  **politics. The only official documentation of Nikola Tesla's arrival to the United States was, again, produced at the Port of New York. On April 7, 1882 a 25-year old Tesla arrived via the SS Nordland, which departed from**

Antwerp. He had returned, on this trip to the U.S., **after lecturing in Paris.** Tesla's destination: New York. **Tesla immigrated as a "laborer,"** though this label hardly befit the man who would become the most prolific inventor in history, with **some 700 technological patents** to his credit.

Previous accounts of Tesla's association with Thomas Edison's projects place him in the United States in the **1870s.** His many technological discoveries were certain to have drawn the attention of those hungry for world domination and superiority. By and large, **Tesla's inventions and his career were excluded from our history books because his inventions and patents were stolen and then weaponized.**

It was never intended for us to learn about the suppression of Tesla's advanced scientific discoveries, nor about those who profited from their theft—the orchestrators of the master plan.

Dear Mr. Kelly:

Mr. Allen and Mr. Ruchlehaus, former acting Director of the FBI, contacted me in 1973 regarding the unavailability of American microfilm records of Nikola Tesla's unpublished diary (now in the Belgrade museum, arranged by month per folder).

At the time I discounted the possibility that these unpublished discoveries had military significance. But because of experiments now under way at Hill AFB, I now suspect such military applications exist and feel it imperative that you be notified, particularly in view of the fact that the Soviets have primary access to the entire collection.

Two photos of each page exist.

After Tesla's death, scientists from the Navy and OSS performed a cursory examination of the diary and notes, which if my memory serves me correctly, was one month long, hardly enough time to decipher Tesla's torturous handwriting. Though Tesla wrote in English, his penmanship was small, blurred, and as difficult to translate as a foreign language.

According to the museum director (1971), the Soviets had made copies of some portions, but not the Colorado Springs diary, which numbers 500 pages, 20 that directly pertain to ball lightning, and 20 or so relevant to the equipment construction. (We copied the most significant portions, but feel more exists.)

EX-115 REC-52/00-2237-29

[REDACTED] an article [REDACTED] magazine, EDN (an electrical engineering magazine), but only with the very recent receipt [REDACTED] of an unpublished manuscript from John J. O'Neill's book (PRODIGAL GENIUS) did I place credence on Tesla's later claim to military applications. Incidentally, some of O'Neill's descriptions were inaccurate and exaggerated, as we have exceeded Tesla's results and are familiar with the experiments. At any rate, there are three possible military applications.

And still, yet, today, they still chase after the secrets of a dead man...to no avail.

Though much has been written about Tesla's successes and failures, **few have detailed the behind-the-scenes financial activities which disclose a Nazi plot to acquire his technology, while research and development costs had largely been paid (unknowingly) by U.S. taxpayers. Many of Tesla's patents fell into Nazi hands prior to and during World Wars I and II.** As a result, Tesla continuously found himself in litigation over patent rights and other issues.

Though he had succeeded in winning the majority of his patent lawsuits, his technology had been repeatedly stolen and sold to the German Nazis and other foreign governments, so he never achieved the financial success he deserved.

The embezzlement of his capitalization went unchecked throughout Tesla's career. At the time of his death (by murder, according to Skorzeny) on January 6, 1943, Tesla died virtually penniless.

Tesla's Assistant, George H. Scherff, Sr.

Nikola Tesla's successes in discovering new technologies did not go unnoticed by many industrial capitalists and world governments. In fact, many of his inventions were developed through secret government programs which began soon after his discoveries in alternating current (AC), electromagnetic energy, electric motors, generators, coils, radio transmission, energy-saving devices, and wireless transmission technologies.

Since Tesla was often buried deep in research at remote labs, many of his financial and legal affairs were supervised by his closest associate, George H. Scherff. Scherff often advised Tesla about pending patent litigation, contracts, proposals, demonstrations, and financial affairs. As any trusty associate would, Scherff stood beside Tesla through all the ups and downs of his financial nightmares, sometimes arranging for extended credit at the Waldorf-Astoria, where Tesla often resided, or by obtaining a cash advance toward research he had been contracted to perform. Near the end of his career, Tesla was evicted from the Waldorf for an outstanding bill which exceeded \$20,000 — a rather large sum for those days.

As Tesla worked on secret U.S. government projects at Colorado Springs, Colorado, Scherff communicated to Tesla the status of his business affairs. Tesla spoke of hopeful, future financial successes, though Scherff repeatedly delivered the news of dwindling funds. Tesla had begun construction of a wireless power transmission tower ("Wardencliff," Shoreham, Long Island) with funds invested by J.P. Morgan. When Morgan discovered that the tower would transmit free electricity and radio waves, he cancelled the project and had the tower dismantled, then sold for scrap. Morgan was not about to allow Americans to receive free electricity, television and radio. Tesla was devastated when he heard the news, but continued on with his new inventions.

Some 12 years later, on October 14, 1918, Scherff wrote to Tesla at Colorado Springs. The correspondence focused on the usual disclosure of pending legal issues and attorney matters and was sent to Tesla on Tesla Company letterhead containing the company's headquarters address at 8 W. 40th Street, New York, NY. [10] On October 15, 1918, (*the next day*) Tesla responded to Scherff's letter (*it seems impossible regarding our understanding of the technology available at the time, but these are the dates attached to the correspondence*).

An interesting anomaly: Tesla's response was addressed to "George Scherff, Esq., Union Sulphur Co., 17 Battery Pl., New York, NY (Union Sulphur Company?). [11] This address was not the location of the Nikola Tesla Company.

The Rockefeller Connection

Records show that 17 Battery Place is the Whitehall Building and was owned by Frank Rockefeller, who, with his brothers William and John D., also owned many of the companies with offices located there. The International Longshoremen's Association (ILA) had its world headquarters there, as well as a variety of oil, mining, and chemical companies. [12] Though Union Sulphur Company was run by its president, Herman Frasch, a German chemist who patented extraction methods for sulphur and petroleum, **Frasch also worked for John D. Rockefeller's Standard Oil Company** (in New York, New Jersey, and Cleveland, Ohio), developing similar extraction methods.

On the basis of this association, George Scherff, Sr., had connections with the Rockefeller family, though it is unclear if Tesla was at all aware of this connection.

Frank Rockefeller was also an investor of Buckeye Steel Castings in Columbus, Ohio. Buckeye manufactured automatic couplers and chassis for railroad cars owned by the **Harrimans, the Rockefellers, and J.P. Morgan**. Eventually, Samuel P. Bush was promoted from general manager to president of the company after producing gigantic profits.

Samuel P. Bush's association with the Rockefellers and his subsequent position as Director of the War Industries Board afforded him the opportunity to create contracts with Remington Arms during the war, courtesy of Percy Rockefeller.

Nikola Tesla's trusted assistant (sometimes referred to as "accountant" or "secretary") George Scherff, Sr., worked at Union Sulphur Company. Normally, this association would not set off alarms, considering the state of Tesla's affairs. Scherff had every right to earn a decent living in order to support his family. That was "the American Way." But a careful examination of Union Sulphur Co. might reveal that someone was being deceived — Tesla, and **Scherff was at the root of this deception.**

Who was George Scherff?

Who was George Scherff? Better yet, who was George H. Scherff, Sr.? There exists no legitimate record of a **George H. Scherff being born in the U.S. from the late-1800s through 1925, yet, George Scherff was Nikola Tesla's assistant/accountant.** If he was born in Germany, could his birthplace shed some light on this mystery? Probably—if they exist (it has become apparent that individuals associated with **the Nazi Party commonly have all or parts of their genealogical records expunged**—we will explore this further in the section of this article dealing with the "Bush" family tree).

George H. Scherff, Jr., visits the FBI

Upon the untimely death of Nikola Tesla, perhaps the world's most renowned scientist in history, J. Edgar Hoover, Director of the FBI, received an unexpected visit from George H. Scherff, Jr. That George Scherff, Sr., Tesla's trusted associate, chose to send his teenage son to visit the FBI's notorious director should have raised a red flag, which it probably did among intelligence agencies.

Scherff, Jr. (George Herbert Bush), explained to Hoover that he had worked for Tesla and was entitled to his papers and other effects. He also expressed concern that "a foreign government might also be interested in his inventions."

Tesla with King Peter II of Yugoslavia at the Hotel New Yorker July 15, 1942. It is strange that Tesla, one of the most brilliant inventors ever, would die penniless and his "trusted assistant", according to Otto Skorzeny and some strangely corroborating records, was "George H. Scherff, Sr." Tesla died January 6, 1943.

Scherff, Jr., also gave Hoover an address, "149 Secord (sic) Rd., New Rochelle, New York" ["Seacord" is the correct spelling].

FOIA file on "subject, Nikola Tesla": "Mr. George H. Scherff Jr. advised that he had received two letters... Mr. Scherff stated that he was an associate of Nikola Tesla in 1914 and that for many years, his father had been Dr. Tesla's private secretary. Mr. Scherff said that he had never heard of Leland J.  nor any of the names mentioned in Anderson's letter" (Anderson had written to the Scherff household seeking information about Tesla's writings).

He was working on a thesis for school and had been seeking information from Tesla's associates and communications).

(February 3, 1954) "Mr. Scherff stated that he has quite a bit of Tesla's writings in his possession and he didn't know whether or not they would be of value to a foreign government."

There are several glaring discrepancies and inconsistencies in George H. Scherff, Jr.'s statements to the FBI (or the actual intent of the document). The author conducted his own research into the background of George H. Scherff, Sr., and, from all indications, concludes that George H. Scherff, Jr., could not have worked for Nikola Tesla in 1914. Scherff, Jr. wasn't even alive in 1914, so he could not have "worked for him" then or at any other time (based upon the numerous accounts about "Curious George," Tesla could not even tolerate him being around his laboratory). It is highly unlikely that Tesla would have hired (or did hire) him. Other than a book written by John J. O'Neill, '*Prodigal Genius, The Life of Nikola Tesla*' in 1944, this was also the only known reference to Tesla having a secretary named "George H. Scherff."

For the greater part of his career, Tesla's secretary was Dorothy F. Skerritt. Both Skerritt and Muriel Arbus worked for him at the time of his retirement, which was forced due to dwindling funds. **The acknowledgments at the end of the book describe George H. Scherff as a "business associate,"** and there is no mention whatsoever of **George H. Scherff, Jr. ever having worked for Tesla.**

So why did Scherff, Jr., lie to the FBI? Because it was dangerous for him to tell Hoover the truth about the real identities of his father and himself. **Why would George H. Scherff, Sr. send his teen-age son to seek papers and other records (belonging to Tesla) from the FBI and not do it himself?** Because the Director of the **FBI, Herbert J. Hoover, would have recognized him as someone other than George H. Scherff, Sr.** In fact, it is highly plausible that the individual who spoke to the FBI was *not* a Scherff and was a stand in.

There also remains the most-likely possibility that the Scherff interview was nothing more than a ruse, created by the FBI for the purpose

of obfuscating the facts around the government's involvement in the murder of Nikola Tesla, the theft of and covert infringement on his patents, and the money laundering that ensued between a few Wall Street banks and Adolph Hitler's Nazi Party. Anyone interviewing George H. Scherff, Jr., would have easily recognized that he was not old enough "to have worked for Nikola Tesla in 1914."

Redacted statements in the above-referenced FOIA files indicate something was being covered up. The "Scherff" documents were created to thwart the research efforts of Leland J. Anderson, hide the facts behind Tesla's murder, and dispel any speculation that the FBI stole Tesla's records, research documents and new technologies.

In 1942, less than a year prior to Tesla's untimely death, it was already known that principles at **New York's Union Banking Corporation had been caught "Trading with the Enemy," Nazi Germany. Among the principals was George Herbert Walker, Prescott Sheldon Bush, "son" of industrialist Samuel Prescott Bush**, who was president of Buckeye Steel Castings in Columbus, Ohio and the director of the Facilities Division of the War Industries Board. **The WIB gave Samuel P. Bush unprecedented ties to the Eastern elite families through its association with one of the largest weapons manufacturers, Remington Arms. Buckeye Steel Castings supplied the railroad industry, controlled by the Rockefellers, the Harrimans, and J.P. Morgan with coupling parts and chassis for their tankers and railcars.**

Behind the scenes, Archbishop Francis Cardinal Spellman secretly influenced (or controlled) the activities of key intelligence agencies in the U.S., thus, affording the Vatican the opportunity to suppress potentially damaging information from reaching the public. Spellman and Hoover served the same "master," though it was not the U.S. government. Upon the revelations of the New York / Nazi money laundering and war profiteering, records in the National Archives, in particular those related to Samuel P. Bush, were destroyed "in order to save space." Most likely, those records exposed  possible, covert relationships in a conspiracy of monumental proportions.

¹¹

Otto Skorzeny | Nazi SS officer with Hitler

Otto Skorzeny: S.S./ODESSA/CIA master spy and assassin had already spirited away a sizable amount of Tesla's research several years before his death. This stolen material, it is thought, would eventually result in the development of the Nazi flying saucer. The United States was going to make sure that this would not happen again.

In 1981, GHSII/GHWB became the vice-President under President Ronald Reagan and knew of the massive funds gathered by Ambassador Leo Emil Wanta's Ameritrust Groupe, Inc., under the direction of President Reagan, during the financial implosion of the Soviet Union in the late-1980s.

GHSII/GHWB then became the 41st president in 1989. During his presidency, President Scherf... er, uh... (aka) President George H.W. Bush, traveled to Hong Kong, demanding trillions of dollars from Wanta and his Chinese partner, Howe Kwong-Kok.

Howe died of poisoning 10 days later, due to their refusal to turn over the money (**amassed under Presidential Order 12333**) which was slated to be returned to the U.S. Treasury. **Today in 2007, the \$4.5 trillion tagged settlement funds are currently being used as a financial ping-pong ball in money laundering**, Ponzi schemes, derivatives, trusts, pension funds, and offshore accounts, with Bank of America, Wachovia Bank, CitiBank Group, JPMorganChase, Goldman Sachs and Co., Bank of Nova Scotia, Chemical Bank, First Union Bank, banks in Germany, Spain, Holland, England, Grenada, North Vietnam, India, U.S. Treasury Secretary Henry M. Paulson, Department of Homeland Security Secretary Michael Chertoff, a host of Cabinet members, former President Bill Clinton, Senator Hillary Clinton, **Vice-President Richard Cheney and President George W. Bush** taking turns holding the paddle."

REMEMBER THE BUSH SR. OR SCHERFF JR. FUNERAL. Imagine knowing all that President Trump knows and having to sit through the entire thing. Knowing he is sitting among serpents and owls. Makes me shudder.

So... the infiltration behind the scenes is not new. To end it would require a total and complete dismantling. We now have President Trump who has inherited all of this insanity and his Uncle John Trump who had the knowledge to interpret the Tesla patents, and drawings... as well as his connections with the man prior to his death... put Trump in another light of why the commies want him out of the picture. President Trump may well have the missing pieces of the secrets they seek... and he may well have implemented those already in Space Force... or he may have them hidden for a better time in history for them to be used. Who knows?

Again... this does not even touch the tip of the iceberg... more later. But for now... digest the players... know the games they have played, for there is nothing new under the sun. They use the same methods, the same way. It won't take much to upset their apple cart... and you do that by YOU DOING DIFFERENT REACTIONS TO THEIR ACTIONS! NO MORE PAVLOV'S DOG ROUTINE!

STEP OUT AND DO SOMETHING DIFFERENT! GOD WILL SHOW YOU THE WAY!

**KEEP ON PRESSING INTO THE KINGDOM OF GOD! PRESS,
PRESS, PRESS!**
